

## **eWiSACWIS Release 2.5 Summary September 25th 2006**

Within this document you will find the release summary of eWiSACWIS (Release 2.5) system changes and enhancements. This summary includes changes that may impact workflow, data entry, procedures and reporting. Some of the changes may have been the result of a policy change while others may have been the result of PEP decisions. "How Do I" and "Quick Reference" guides should continue to be accessed for more specific usage of the application and/or new functionality.

**Note: eWiSACWIS will be unavailable on September 22<sup>nd</sup> from approximately 5pm to 11pm.**

**The eWiSACWIS Knowledge Web will also contain the following information:**

- **Pre-Release Summaries**
- **Detailed Post-Release notes**
- **Program Activity Workshop/Technical Activity Workshop documentation**
- **Operations Memos**
- **Quick Reference Guides**
- **"How Do I" Guides**

## eWiSACWIS Release 2.5 - Incidents and Enhancements

\* Indicates significant change to system functionality

ID	Problem Area	Description
21116	AFCARS	The foster care discharge "for adoption" on the last day of a reporting period will no longer be incorrectly carried over to the next reporting period.
20400	AFCARS	Allows MA eligibility to be tracked for AFCARS reporting purposes.
20485	AFCARS	The overnight AFCARS batch program will now ignore 1 day placements where the Removal Date is equal to the Discharge Date.
9560	AFCARS	The AFCARS Batch program has been modified to allow overlapping reporting periods to resolve the issue with the ticklers not deleting within the respective summer or winter batch processes depending upon when the exception occurred.
21004	Access	Multiple Serious Incident notifications will now save when inserted at the same time.
20097	Access	Report SM0201 Access Report <ul style="list-style-type: none"> <li>- The names under Screen Worker Name (column V) are the names that are displayed in the summary report.</li> <li>- Zip Code (column H) is now displayed on the report.</li> <li>- The summary report now has a report key.</li> </ul>
20361	Access	The Services Report Additional Information template (on the Access Report page) is now pre-filling correctly from the CIA.
20789	Activity Notes	Added a new case note type of Family Group Conference for the Safety Services category of case notes.
<b>20656*</b>	Activity Notes	The search link used to indicate the 'Worker Making Contact' is now available when a note has been saved but not finalized.
<b>20639*</b>	Activity Notes	Fixed Provider and Case Notes so that sort of narrative works in the following situations: <ul style="list-style-type: none"> <li>- on the window (sometimes correction notes were out of order)</li> <li>- on the template for one note (sometimes correction notes were out of order)</li> <li>- on the template for print all notes (sometimes the correction came first and the correction notes were out of order)</li> </ul>
20655	Approvals	Approvals are no longer modifiable from search for the worker that can take an approval action from the Legal Record page. They will be view only.
<b>20907*</b>	Assessment	If an Initial assessment was created during release 2.3 with a Modified IA the supervisor will no longer receive a fatal application error when they approve the work.
<b>20029*</b>	Assessment	The Modified Initial Assessment option was removed from the Assessment page.
20933	Assessment	Fixed a template formatting issue for the Initial Assessment Narrative template. Section B. - Family's Functioning text field is now formatted to template standards.
20677	Assessment	Case Participant/Collaterals pop up. (Launched from Add/Edit button on the Initial Assessment Primary Caregivers page). The buttons in the header are no longer shifted over to the left to overlay the eWiSACWIS icon.
20757	Assessment	The disposition reason is now pre-filling into the Disposition Information section of the SDM Information/Data Reporting Summary template
20935	Assessment	All Case Open/Case Closed values pre-fill correctly into the IAPC template.
21008	Assessment	Safety Assessment and Plans will be correctly displayed on the outliner. In some instances, SAPs from another case were appearing in unrelated cases.
<b>20589*</b>	Assessment	Access page and Assessment page – New Shaken Baby Syndrome reference data and the mandatory completion requirement for the description field have been added.
<b>20983*</b>	Assessment	A completed checkbox was added to the IA-Secondary and IA-Narrative page so that the case disposition can be entered when it is appropriate to enter the information. Note: The completed checkbox will need to be selected before the Assessment can be approved.
20450	Assessment	Inactive CAN codes (inactivated as part of the Access Change order) will now appear in the Allegation tab of the Assessment window.

20863	Assessment	The following three templates have been removed from the application: Adoption Family Assessment CFS-2101 Statewide Safety Services Staffing Results BMCW Safety Services Staffing Results
20495	Assessment	The Response Time field in the Report group box on the Assessment page will no longer pull old R/T values. It has been corrected to pull the new values introduced as a part of the Access changes in R 2.3.
21046	Assessment	The Maltreater field validation will be generated at the same time as other allegation field validations. Currently, the validation for the Maltreater is only displayed if no other validations are displayed.
20989	Assessment	The "old" Investigation disposition of: Referred to Law Enforcement will no longer result in a Fatal Application Error.
20885	Automated Messaging	The duplicate provider automated messages have been updated. The following statement has been added to the beginning of provider link automated messages that are sent to all assigned workers: "Please Note: This message is being sent to all workers assigned to the <<insert case name>> case. If you are not the worker in charge of maintaining <<insert child's full name>>'s placements in eWiSACWIS, you may not need to take further action."
20211	Automated Messaging	The automated message (generated when ending In Home Services will be changed to indicate that an In-Home "Service" has been ended vs. "Placement".
20476	CIA	The CIA issue where text was being deleted after the '#' sign in the address field and apartment field has been fixed.
<b>20795*</b>	CPS Reports	All historic PS Reports are now populated with their respective PS Report Narratives.
20948	Desktop	The outliner view has been modified so that multiple Case Progress Evaluations will be sorted in chronological order (descending order by Creation Date).
<b>10542*</b>	Desktop	<p>A new checkbox called "View Not Approved/Cancelled" has been added to the desktop below the {Worker's Name}. The new checkbox can be checked and unchecked by the user. Changing the status/view will refresh the desktop.</p> <p>When the "View Not Approved/Cancelled" checkbox is not checked the system will hide all previously cancelled (checks) or Not Approved work (payments, forms, plans, etc.) and display only previously approved work (approved placement (both out and in-home), approved legal documentation, licenses ), pending work (work associated with approvals, but lacking final approval), work in progress (work not associated with approval and which does not have a status, such as: adoption referral, ICPC Record, legal record) and work not associated with approval, but which has a pending/accepted/rejected status (checks with status OK or pending). Not Approved plan terminations will not be hidden. Not Approved case closures will not be hidden. Not approved Additional Licensing Actions will not be hidden.</p> <p>The unchecked "View Not Approved/Cancelled" is a default view.</p>
20521	Desktop	Fixed the Access Report date under the Cases expando and via search to display the Date/Time Received date instead of the supervisor screen-in date.
20634	Desktop	The county specific and view-all-county access desktop filters (display) are now working correctly with regard to payments associated with a check.
20411	Document Plans	The approval and termination options are no longer available for editing when the Adoption Case Plan page is opened through Utilities/Search. These options are now available for view only.
21210	Document Plans	Corrects an issue which was preventing supervisors from approving the termination of a Family Assessment & Case Plan or Case Progress Evaluation without an assignment to the case - unless they were using Approval Management. Supervisors will now be able to approve these work items using the approval expandos.
<b>20637*</b>	Document Plans	Workers can now access and work on the Safety Assessment and Plan from the options drop down of the Family Assessment and Case Plan, the Case Progress Evaluation, and the IA Primary caregiver pages.

20778	Eligibility	The CFS-75 template was replaced with a new version of the template.
20649	Forms	The JJ Case Review/Closing Narrative will now freeze upon 'Approval'.
20779	Foster Care/Out of Home Placements	Resolves a reporting error in SM10a32 Placement Report when report period is longer than 12 months.
7695	Foster Care/Out of Home Placements	sm10a25 – Placement Stability Report. The Provider Name was added in as a column to the right of Provider Id. The name is in the format of first name last name and if it is a private provider then the agency name is displayed.
20825	Foster Care/Out of Home Placements	Additional logic was added to correctly count placement settings.
20615	Foster Care/Out of Home Placements	The SM10a28 ICWA Report will now include non-JJ numbers as "Subject to ICWA" in all summary reports. Includes changes to report key.
10023	Foster Care/Out of Home Placements	Changed the method by which the recalling of work is done system wide. Items of work which are recalled are now directed to the person ID on the initial approval row, not the creation ID of the initial approval row. This should prevent work from being recalled to batch program IDs in most situations.
21003	Foster Care/Out of Home Placements	<p>The following issues will no longer occur on pages where the user is able to create multiple templates (i.e. Placement Notification page, Eligibility Notification page, Serious Incident Notification page).</p> <p>Issue 1: Inserting two or more documents and launching the templates, and then saving the templates together only saves the most recent template.</p> <p>Issue 2: Once a document is marked as sent and viewed it remains read-only even after the sent checkbox is unchecked.</p>
20535	Foster Care/Out of Home Placements	Foster Care Rate Settings that are entered into a prior Uniform Foster Care Rate period will now require an end date. This will ensure payments are processed correctly for both the old rate period and for the new rate period in two separate rate setting records. The worker can and should still use the copy over feature, but the basic rate will prefill with the appropriate rate for the time period.
20276	Foster Care/Out of Home Placements	Fixed template prefill issue for the Kinship Care - Notice of Assignment for Child Support template. The Caretaker Information now correctly prefills the Parent 1 social security number and date of birth.
20947	Foster Care/Out of Home Placements	Workers with adoption security are now able to update child specific rates and save their changes on the adoptive In Home service.
21218	Foster Care/Out of Home Placements	Fixes the issue with the monthly birthday batch which was incorrectly ending a foster care rate setting if there was more than one child placed with a given provider who both had birthdays in the same month.
20438	Gather/Monitor/Request Reimbursement	Adds the Subsidized Guardianship program group assignment to the Title IV-E audit report output.
<b>20343*</b>	Home Inquiry	When a home inquiry is screened out, the system now links the screened out home inquiry with the associated provider.
20886	Home Provider	Updates the CFS-2186- Notice to Foster Parents Regarding Confidentiality of Records as there are significant wording changes.
20408	Home Provider	A Fatal Application Error will no longer result when edit unlicensed services is accessed but a service type is not selected.
20680	Home Provider License	The system will no longer allow workers to make updates to a pending license for a home provider in a designated county different from their own.
<b>20862*</b>	Home Provider License	<p>Adds two new templates to the system for both State Adoption workers and county workers to use when licensing a home. The current AFA has been removed from the system and in it's place will appear:</p> <p>1) Child Specific Home Study Report 2) Multi-Purpose Home Study Report.</p>
20791	ICPC	This change modifies the ICPC Processing Timeframes Report- SM1803 to ensure the processing timeframes are tracked correctly.

20790	ICPC	This change modifies the ICPC Jurisdiction Status report - SM1802 to ensure the processing timeframes are tracked correctly.
21118	ICPC	Fixes an issue with the SM18 ICPC series of reports. The report period dates will be correctly displayed based on the quarter (or quarters) for which the report is run.
<b>10218*</b>	Issue/Reconcile Checks	Creates a whole new set of financial reports which are in Excel spreadsheet format. The report content mirrors the information found in the Pending Checks and Pre-Audit Payee reports, is sort able and in a single-line format. County staff that need to access these reports will need to request access to these reports from their security delegate. The report IDs are from FM0221 - FM0231.
10539	Issue/Reconcile Checks	Adds or updates sorting on 4 financial pages: MAINTAIN > FINANCIAL > Check Disposition, Check Number Recording, Check Pending. CREATE > FINANCIAL WORK > Manual Check.  Areas affected:  1) Name display 2) Standard sort order on all above pages 3) Adding column sorting to pending checks review page.  Standard Name display is "Last, First, MI., Suffix"
3947	Legal Consult	Modified the Spanish HFS-9 template to prefill SSN, child name and address correctly and fixed the role drop down filed to display Client and N/A only. Also, standardized template formatting.
20530	Licensing Home Providers	The license expire batch now creates an additional licensing action row to indicate that the license was expired if the provider has a parent agency other than itself.
20573	Maintain Case	Creates a new report to enhance the worker list portion of r-sm04a02-case-list.
20626	Maintain Services	Validation edits are generated correctly on the Maintain Statewide Rate and Eligibility Cost page and prompt workers to enter data in all required fields.
<b>20205*</b>	Merge Person	Allow workers to identify when a merge is not appropriate so the question mark icon will no longer display on the case/provider maintenance page.
20766	Mobile Computing	When a Safety Assessment and Plan is checked out, the SAP online can be launched and the approval page appears to be enabled. It is now disabled and viewable only.
<b>20428*</b>	Mobile Computing	When case notes are in a pending status and checked out to eWiSACWIS Anywhere, the notes will be editable like they are online. Also, when case notes are checked in and not finalized, the notes will remain editable.
20453	NCANDS	Enhances the NCANDS Child and Agency File logic based on the federal review of the State's recent NCANDS submission.
20519	Person Management	Allows US Citizen to be Unchecked on the Person Management window.
20610	Private Provider	The WI City field will now be blanked out after a person is searched.
20630	Process Payments Requests	The Payment Request page now correctly enforces the spending limit associated with a particular service type.
20468	Process Payments Requests	Fixes an issue with the calc_ongoing payment batch which would skip rate settings if they were created in-between monthly and weekly cycles. Payments should be generated correctly from now on for back-dated rate settings.
20446	Process Payments Requests	Completes formatting changes to the DMT 921 template (Invoice Request).
20291	Process Payments Requests	'Overpayment Source Number:' has been changed to 'Overpayment Source #' and allows entry of 15 characters.
20262	Process Payments Requests	This enhancement retrieves the new reference values available in real time on the Payment Request page. For example, newly-created category or newly-added placement statuses are available for the user to select on the page immediately.
20467	Process Payments Requests	Modifies the calc ongoing payment batch to specifically ignore any open foster care rate settings when paying for an AAFC Adoptive Home for the same child, case and

		provider. The system will only pay the child specific rate.
10569	Search	Search will now returning names with spaces when set to High.
20553	Ticklers	When reassigning ticklers, the ticklers will be reassigned and not deleted.
6538	Templates	Templates will only save when a worker clicks Save on the window from which the template was launched.
<b>20570*</b>	Templates	This enhancement develops a table-driven process that provides access to template mappings from the page they are launched from. A new banner button will be displayed only on pages that have templates. Clicking on the button will take the worker to the associated template mapping document. The mapping document will educate workers on template functionality. The documents will identify whether a field is prefilled, user entered, modifiable or not and if prefilled, where/how that information is entered.
